	Annualized Total Return <sup>2</sup>	Annualized Standard Deviation
iCapital KKR Private Markets Fund: Class I	9.13%	8.02%
iCapital KKR Private Markets Fund: Class A (NAV)	8.44%	8.01%
iCapital KKR Private Markets Fund: Class A (maxload) <sup>3</sup>	7.94%	8.17%
MSCI All-Country World Index	7.54%	15.74%

For the period from the Fund's inception through May 31, 2016, the returns and expenses of Class A shares reflect the performance of the prior feeder fund; and the returns of Class I shares reflect the performance of the Fund prior to its issuance of multiple share classes and reclassification of existing shares. From June 1, 2016 forward, the returns reflect performance of Class A and Class I shares, respectively, of the iCapital KKR Private Markets Fund (formerly known as the Altegris KKR Commitments Master Fund). As of February 12, 2021, iCapital Registered Fund Adviser LLC (the “Advisor”) is the investment adviser to the Fund. As of February 1, 2022, the Fund no longer had a sub-adviser. Prior to February 1, 2022, StepStone Group L.P. (“StepStone”) served as sub-adviser.

The total annual fund expense ratio, gross of any fee waivers or expense reimbursements, is 3.18% for Class A shares and 2.58% for Class I shares as of the most recent Prospectus dated June 8, 2022, as supplemented. See the Prospectus for more information.

The performance data quoted represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance data shown above. Investment return and principal value will fluctuate, so that shares, when sold, may be worth more or less than their original cost. The Fund's performance is net of certain fees and expenses. See the Fund's prospectus for a comprehensive explanation of the Fund's fees and expenses.

The returns reflect any expense limitation and reimbursement agreement in place at the time, without which, the performance in certain periods would have been lower or higher. The Fund's performance, especially for short periods of time, should not be the sole factor in making your investment decision.

MSCI All-Country World Index. The MSCI ACWI captures large and mid cap representation across 23 developed markets and 27 emerging markets countries. With more than 3,000 constituents, the index covers approximately 85 of the global investable equity opportunity set. The index shown is for general market comparisons and is not meant to represent any actual fund. An index is unmanaged and not available for direct investment. Standard deviation is a statistical measure of how consistent returns are over time; a lower standard deviation indicates historically less volatility.

KKR has a minority, non-voting interest in the Advisor, but has no control over or voting interests in the Advisor, including no representation on any investment committee or equivalent body or any input into the investment advice provided by the Advisor. KKR personnel have no role in the Advisor's investment process. KKR is neither a sponsor, promoter, adviser nor affiliate of the Fund. Diversification does not ensure profit or protect against loss in a positive or declining market.

### Q1 Commentary

Fund performance was modestly positive for Q1 with Class I shares returning 0.59% and Class A shares returning 0.47%, compared to 7.30% for the MSCI ACWI Index.

- By investment type, co-investments and primaries contributed positively to returns. Results from secondaries were flat.

- The Fund experienced a meaningful positive contribution from an underlying company in the Information Technology sector that operates a mobile app technology platform. An underlying portfolio company in the Consumer Staples sector that manufactures plant-based foods also contributed positively to returns.
- These positive results were offset by a negative contribution from an underlying portfolio company in the Health Care sector that manages physician staffing. ### RISKS ASSOCIATED WITH AN INVESTMENT IN THE FUND

**The discussion of the various risks is not intended to be a complete enumeration or explanation of the risks involved in an investment in the Fund. The Fund should be considered a speculative investment and involves a high degree of risk and may involve loss of capital, up to the entire amount of a shareholder's investment.**

The nature of private equity can result in a lack of transparency due to limited information, and the risk of loss is increased due to speculative strategies employed by the Fund, including investing assets in private equity, private credit, early stage and other private investments which may not perform as expected. More importantly, Fund and underlying fund shares will not be listed on any national securities exchange and are subject to restrictions on transferability, thereby making them illiquid.

Other risks include, but are not limited to, market risk, concentration risk, and potentially less diversification due to the substantial portion of Fund assets invested in manager-specific private equity. The Fund is also subject to the risks of leverage, higher fees and additional layers of expenses, as well as the potential for greater volatility due to Fund assets invested in a limited number of securities, or a focus on particular sectors and geographical regions.

Assets invested in foreign securities exposes the Fund to various geopolitical risks and currency fluctuations typically not applicable in the U.S., and this risk is magnified for emerging markets. The potential for adverse changes in business and tax laws involves tax risk and heightened regulatory scrutiny. The lack of a secondary market for trading private equity subjects the Fund to liquidity risks and may result in greater price risk and potential for inaccuracies in determining fair market value of investments held in the portfolio. Investments acquired in reliance on imperfect information increases counterparty risk and liabilities, and anticipated value may not be realized.

The Fund is distributed by iCapital Securities, LLC ("iCapital Securities"), an SEC-registered broker-dealer and member of FINRA and SIPC. iCapital Registered Fund Adviser LLC, an affiliate of iCapital Securities, serves as the investment adviser to the Fund and StepStone Group LP serves as sub-adviser. Each of the Adviser and Sub-Adviser are registered as an investment adviser with the Securities and Exchange Commission; however, such registration does not imply a certain level of skill or training and no inference to the contrary should be made. The Adviser is exempt from registration with the Commodity Futures Trading Commission as a commodity pool operator. The Adviser became investment adviser to the Fund on February 12, 2021. Before February 12, 2021, the Fund was managed by a different investment adviser and StepStone Group LP was the sub-adviser.
