<sup>&</sup>lt;sup>1</sup> The Performance data quoted is historical. **Past performance is no guarantee of future results**. Current performance may be higher or lower than the performance data quoted. The principal value and investment return of an investment will fluctuate so that your shares, when repurchased, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the repurchases of Fund shares. Per the fee table in the Fund's July 29, 2025, prospectus, the total annual operating expense are 2.70% and 2.10% for the Fund's Class A and Class I shares, respectively. For performance information current to the most recent month-end, please call 1-212-994-7333.

<sup>&</sup>lt;sup>4</sup> The MSCI All Country World Index (ACWI) is a market-cap-weighted global equity index that tracks emerging and developed markets. It currently monitors more than 2,500 large- and mid-cap stocks in 47 countries. The index is unmanaged, is not available for investment and does not incur fees.

<sup>(4)</sup> Total returns shown exclude the effect of applicable sales charges and tender fees and assumes reinvestment of all distributions.

<sup>(5)</sup> Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Advisor.

<sup>(6)</sup> Expense Ratios do not include the expenses paid on the Investment Interests.

<sup>(7)</sup> The Fund estimates its tax expense on iDPE Subsidiary, LLC, a wholly owned subsidiary. During the year ended March 31, 2024, the Fund had a change in tax estimate that reduced the gross and net expense ratios. Without this reduction the gross and net expenses ratios would have been 1.45% and 2.05% for Class I and A, respectively.

<sup>(8)</sup> The Fund estimates its tax expense on iDPE Subsidiary, LLC, a wholly owned subsidiary. Due to the timing of tax estimates the Fund had a tax overpayment from 2020 that reduced the gross and net expense ratios. Without this reduction the gross and net expenses ratios would have been 1.86% and 2.47% for Class I and A, respectively.

<sup>(9)</sup> Not annualized.

#### 1. ORGANIZATION

iDirect Private Markets Fund (the "Fund") is organized as a Delaware statutory trust that commenced operations on July 31, 2015, and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, non-diversified investment management company. iCapital Registered Fund Adviser LLC (the "Adviser" or "iRFA"), an affiliate of Institutional Capital Network, Inc. ("iCapital"), serves as the Fund's investment adviser. The Fund currently offers two separate classes of shares of beneficial interest, designated Class A and Class I (each, "Shares") on a continuous basis at the net asset value ("NAV") per share plus any applicable sales loads.

The minimum investment for an investor in the Fund is \$25,000. Class A shares are offered at NAV plus a maximum sales charge of 3.50% and are subject to an annual distribution and servicing fee payable monthly. Class I shares are sold at NAV without an initial sales charge and are not subject to a distribution or shareholder servicing fees. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. The Fund's income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each month based upon the relative net assets of each class.

The Fund's investment objective is to seek long-term capital appreciation. The Fund intends to allocate at least 80% of its assets to private equity investment interests of any type ("Investment Interests"). The Fund allocates substantially all of its assets to Investment Interests sponsored or managed by Kohlberg Kravis Roberts & Co. L.P. or an affiliate (collectively, "KKR"), Vista Equity Partners Management, LLC or an affiliate (collectively, "Vista"), or Warburg Pincus LLC or an affiliate (collectively, "Warburg Pincus" and with KKR and Vista, the "Core Independent Managers"). The Fund is in the process of transitioning its portfolio such that upon conclusion of this transition period, the Fund intends to (i) allocate approximately one-third of the value of its Investment Interests to each Core Independent Manager and (ii) invest approximately 10% of its total assets in more liquid securities for cash management purposes. The Fund may at any time determine not to allocate its assets to the Core Independent Managers and, instead, may determine to allocate its assets to Investment Interests not sponsored, advised by, or otherwise linked to, a Core Independent Manager and to mandates and asset classes not representative of private equity.

Following the transition period, the Fund intends to invest approximately 90% of its total assets in direct access investments ("Direct Access Investments") through or alongside private equity funds sponsored or managed by the Core Independent Managers. Direct Access Investments are sourced from arrangements in which the Fund has the opportunity to invest in a Core Independent Manager's buyout and growth equity investments globally on a deal-by-deal basis. However, the Fund may at any time determine not to allocate its assets to the Core Independent Managers and, instead, may determine to allocate its assets to Investment Interests not sponsored, advised by, or otherwise linked to, a Core Independent Manager and to mandates and asset classes not representative of private equity.

Since the Fund's inception in 2015, the Fund has operated as a "non-diversified" fund for 1940 Act purposes. Under the 1940 Act, a registered investment company is required to state whether it is diversified or non-diversified for 1940 Act purposes. A "diversified" fund is one whose 5%+ investments comprise no more than 25% of the fund's total assets; a non-diversified fund is not subject to this 25% limitation. In July 2019, the Fund disclosed in its updated Prospectus that it was a diversified fund based on the Fund administrator looking through the Fund's underlying fund investments to the portfolio companies held by the underlying funds (the "Look Through Approach"). After further review, the Fund has concluded that the Look Through Approach was not the appropriate methodology to determine whether the Fund is a diversified or non-diversified fund for 1940 Act purposes. As a result, the Fund has revised (and will revise) its disclosure with respect to certain other filings to consistently reflect that the Fund operates as a "non-diversified" fund. Importantly, at all times since the Fund's inception, the Fund has operated as a non-diversified fund for 1940 Act purposes based on its underlying fund investments.

Operating Segments – The Fund has adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures ("ASU 2023-07"). Adoption of the standard impacted financial statement disclosures only and did not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The CODM is comprised of the portfolio manager and Chief

or Principal Financial Officer of the Fund. The Fund operates as a single operating segment. The Fund's income, expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of the Fund, using the information presented in the financial statements and financial highlights.

Consolidation of a Subsidiary – The consolidated financial statements of the Fund include iDPE Subsidiary, LLC ("iDPE, LLC") (formerly known as iKF, LLC), (the "Subsidiary") a limited liability company and wholly owned subsidiary of the Fund. All intercompany accounts and transactions have been eliminated. As of September 30, 2025, the net assets of iDPE, LLC were \$55,276,350, which is 4.88% of the Fund's consolidated net assets.

#### 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies are in conformity with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The Fund qualifies as an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services – Investment Companies ("ASC Topic 946"), and therefore is applying the specialized accounting and reporting guidance in ASC Topic 946.

Investment Interests Valuation – The Fund has adopted valuation procedures pursuant to which it will fair value its Co-Investment Opportunities and Investment Funds. These valuation procedures, which have been approved by the Fund's Board of Trustees (the "Board"), provide that the unaudited valuations determined by the general partner, managing member or affiliated investment adviser of the Investment Interests (the "Investment Managers") will be reviewed by the Adviser. The Fund will generally rely on such valuations even in instances where an Investment Manager may have a conflict of interest in valuing the securities. Furthermore, the Investment Interests will typically provide the Adviser with estimated NAVs or other valuation information on a quarterly basis, and such data will be subject to revision through the end of each Investment Interest's annual audit. While such information generally is provided on a quarterly basis, the Fund calculates its NAV and issues shares on a monthly basis.

The fair value of the investments in the portfolio is determined at the date of the Consolidated Statement of Assets and Liabilities. The Fund follows the guidance set forth under ASC Topic 820, Fair Value Measurements ("ASC Topic 820"), and defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Pursuant to Rule 2a-5 under the 1940 Act, the Board designated the Adviser as the Fund's Valuation Designee (the "Valuation Designee") to perform the Fund's fair value procedures, under the Board's general supervision. As the Fund's Valuation Designee, the Adviser is responsible for the assessment and management of valuation risks, establishment and application of fair value methodologies, testing of fair value methodologies, and overseeing pricing services. The Adviser's Pricing Committee (the "Pricing Committee"), which is comprised of representatives of the Adviser, meets monthly, or as needed, to determine the value of the Fund's investments. The Pricing Committee may enlist independent valuation firms to provide third-party valuation consulting services. The Adviser certifies to the Board that the Fund's valuation policy and procedures are properly followed.

The Fund utilizes various methods to measure the fair value of its investments. U.S. GAAP establishes a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC Topic 820, these inputs are summarized below:

**Level 1** – Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market for similar instruments, and fair value is determined through the use of models or other valuation methodologies.

**Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability and based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. The categorization of Level 2 or Level 3 is based on the significance of the unobservable inputs to the overall valuation. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for investments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments. The following tables summarize the inputs used to value the Fund's investments by fair value hierarchy as of September 30, 2025:

<sup>\*</sup> Investments valued using NAV as the practical expedient, an indicator of fair value, are listed in a separate column to permit reconciliation to totals presented on the Consolidated Statement of Assets and Liabilities.

The following table is a reconciliation of assets in which Level 3 inputs were used in determining value:

Transfers to and from Level 3 occurred due to an increase/decrease in the significance of an unobservable input to the estimate of fair value as of and during the six months ended September 30, 2025, due to timing of the investment interests' net asset value or to fund liquidation.

The following table is a summary of the valuation techniques and unobservable inputs used in the fair value measurements as of September 30, 2025:

Total	\$	73,704,467				

<sup>\*</sup> The significant unobservable input applied to fair value adjusted investments, in part or in whole, is the application of an alpha and beta to a benchmark. The benchmark used is a world market index and the beta is calculated through analysis which is backtested by the Adviser. As of September 30, 2025, the alpha and beta applied were .80% and .30%. An increase of the beta would indicate an increase in the effect of the input to the fair value.

The valuation process involved in Level 3 measurements is designed to subject the valuation of the investments to an appropriate level of consistency, oversight and review. The valuation of the Fund's Level 3 investments relies on evaluations of multiple observable and unobservable inputs including financial and operating data; company specific developments, stock prices, earnings and tax rates; market valuations of comparable companies; analysis of market segments; and model projections. The output of these evaluations is typically reviewed and approved by the Pricing Committee which receives information surrounding their valuation process and, in some circumstances, the valuation analysis.

Investments Valued at NAV – ASC Topic 820 permits a reporting entity to measure the fair value of an Investment Interest that does not have a readily determinable fair value based on the NAV per share, or its equivalent, of the Investment Interest as a practical expedient, without further adjustment, unless it is probable that the investment would be sold at a value significantly different than the NAV. If the practical expedient NAV is not as of the reporting entity's measurement date, then the NAV should be adjusted to reflect any significant events that may change the valuation. In using the NAV as a practical expedient, certain attributes of the investment that may impact its fair value are not considered in measuring fair value.

Attributes of those investments include the investment strategies of the investment and may also include, but are not limited to, restrictions on the investor's ability to redeem its investments at the measurement date and any unfunded commitments. The Fund is permitted to invest in alternative investments that do not have a readily determinable fair value and, as such, has elected to use the NAV as calculated on the reporting entity's measurement date as the fair value of the investment.

Adjustments to the NAV provided by the Adviser would be considered if the practical expedient NAV was not as of the Fund's measurement date; if it was probable that the alternative investment would be sold at a value materially different than the reported expedient NAV; or if it was determined by the Fund's valuation policies and procedures that the private investment is not being reported at fair value.

A listing of the Investment Interests held by the Fund and their attributes, as of September 30, 2025, are shown in the table below:

<sup>\*</sup> The information summarized in the table above represents the general terms for the specified asset class. Individual Investment Interests may have terms that are more or less restrictive than those terms indicated for the asset class as a whole. In addition, most Investment Interests have the flexibility, as provided for in their constituent documents, to modify and waive such terms.

**Unfunded Commitments** – As of September 30, 2025, the Fund had total unfunded commitments of \$48,272,597 which consisted of \$17,096,388 Direct Access Investments, \$20,330,168 Primary Investments and \$10,846,041 Secondary Investments. The Fund expects to fulfill these unfunded commitments through the use of cash, liquid investments, future distributions from Investment Funds, and line of credit proceeds.

Security Transactions and Related Income – Security transactions are accounted for on a trade date basis. Interest income is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds. The Fund bears all expenses incurred in the course of its operations and expenses are recorded on an accrual basis.

The Fund does not invest directly in marketable securities; however, from time to time, the Investment Interests may make distributions of marketable securities to the Fund. Upon receipt, these marketable securities are initially recorded at their fair values at the date of distribution from the Investment Interests. Thereafter, these marketable securities are carried at their estimated fair value, which is the closing price. The net realized gain (loss) from these securities is recorded in the Consolidated Statement of Operations, if any, represents the difference between the proceeds received from the sale of these marketable securities and the amount at which these marketable securities were initially recorded using the identified cost basis method.

Dividends and Distributions to Shareholders — Dividends from net investment income are declared and distributed at least annually and are recorded on ex-dividend date. Distributable net realized capital gains are declared and distributed at least annually. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book/tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification.

<sup>\*\*</sup> The investment interests cannot be redeemed. Instead, the nature of the investment interests is that distributions are received through the liquidation of the underlying assets. Distributions from Investment Interests occur at irregular intervals, and the exact timing of distributions from Investment Interests cannot be determined. It is estimated that distributions will occur over the life of the Investment Interests.

Federal Income Taxes – The Fund's policy is to continue to qualify as a Regulated Investment Company ("RIC") by complying with the provisions of the Internal Revenue Code that are applicable to RICs and to distribute substantially all of its taxable income and net realized (after reduction for capital loss carryforwards) gains to shareholders. Therefore, no federal income tax provision has been recorded for the Fund.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities in accordance with the FASB ASC 740, Accounting for Uncertainty in Income Taxes. Management has analyzed the Fund's tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions expected to be taken on returns filed for open tax year ended September 30, 2022 through September 30, 2024, or expected to be taken in the Fund's September 30, 2025, tax return. The Fund identifies its major tax jurisdictions as U.S. Federal and foreign jurisdictions where the Fund makes significant investments. However, the Fund is not aware of any uncertain tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

iDPE, LLC, the wholly owned subsidiary of the Fund, is a domestic limited liability company that has elected to be treated as a C Corporation for federal and state income tax purposes. State tax returns are filed in various states in which an economic presence exists. Current state taxes consist of income taxes, franchise taxes, business taxes, excise taxes or gross receipts taxes, depending on the state in which the returns are filed. Income taxes are charged based on apportioned income for each state.

iDPE, LLC recognizes deferred income taxes for differences in the basis of assets and liabilities for financial and income tax purposes. Deferred tax assets are recognized for deductible temporary differences, tax credit carryforwards or net operating loss carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Deferred tax assets are reduced by a valuation allowance when, in the opinion of the Adviser, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and the rates on the date of enactment.

When tax returns are filed, some positions taken may be sustained upon examination by the taxing authorities, while other positions are subject to uncertainty about the merits of the position taken or the amount of the position that would be sustained. The Adviser considers the likelihood of changes by taxing authorities in its filed income tax returns and recognizes a liability for or discloses potential changes that it believes are more likely than not to occur upon examination by taxing authorities.

The Adviser has not identified any uncertain tax positions in filed income tax returns that require recognition or disclosure in the accompanying consolidated financial statements. The Fund's income federal tax returns for the past three years and state tax returns for the past four years are subject to examination by taxing authorities and may change upon examination. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits in operating expense. No interest expense or penalties were recognized during the six months ended September 30, 2025 and 2024.

The estimated provision for (benefit from) income taxes for the six months ended September 30, 2025 and 2024 consist of the following:

Current:	2025	2024
Federal	\$ 287,683	\$ 120,087
State	32,089	53,850
	319,772	173,937
Deferred:		
Federal	3,362,292	1,791,691
State	375,042	803,446
	3,737,334	2,595,137
Estimated provision for income taxes	\$ 4,057,106	\$ 2,769,074

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes.

At September 30, 2025 and 2024, components of the estimated deferred tax assets and liabilities are as follows:

	2025	2024
Deferred tax assets:	\$ -	\$ -
Deferred tax liabilities: Net unrealized gains on investment securities	(3,737,334)	(2,595,137)
Net deferred tax (liabilities)	\$ (3,737,334)	\$ (2,595,137)

Total income tax expense (benefit) (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 21% to net investment income and realized and unrealized gain (loss) on investments before taxes as follows:

idpe, llc	As of	September 30, 2025		As of	September 30, 2024
Income taxes at statutory rate	\$	1,242,840		\$	288,305
State income tax benefit (net of federal benefit)		321,633			677,264
Book to tax period adjustment		2,492,634	_		1,803,505
Provision for income taxes	\$	4,057,107	_	\$	2,769,074

Cash and Cash Held in Escrow – Cash consists of monies held at UMB Bank, N.A. Such cash may exceed federally insured limits. The Fund has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on such accounts. There are no restrictions on the cash held by the Fund. Cash held in escrow represents monies received in advance of the effective date of an Investor's subscription. The monies are deposited with the Fund's transfer agent and will be released from escrow on the effective date of the subscription. The transfer agent holds escrow monies at First National Bank of Omaha.

**Short-Term Investments** — Short-term investments represent investments in high quality money market instruments and money market mutual funds and are recorded at NAV per share, which approximates fair value. Money market instruments are high quality, short-term fixed-income obligations, which generally have remaining maturities of one year or less and may include U.S. Government securities, commercial paper, certificates of deposit and bankers acceptances issued by domestic branches of U.S. banks that are members of the Federal Deposit Insurance Corporation, and repurchase agreements.

Foreign Currency Translations – All assets and liabilities denominated in foreign currencies are translated into U.S. Dollars based on the rate of exchange of such currencies against U.S. Dollars on the date of valuation. Purchases and sales of securities and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments in the Consolidated Statement of Operations.

**Indemnification** – The Fund indemnifies its officers and trustees for certain liabilities that may arise from the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties and which provide general indemnities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

#### 3. INVESTMENT TRANSACTIONS AND ASSOCIATED RISKS

**Investment Transactions** – For the six months ended September 30, 2025, the cost of purchases and proceeds from sales or other disposition of investments excluding short-term investments amounted to \$100,165,130 and \$7,322, respectively.

**Associated Risks** – During the normal course of business, the Fund may purchase, sell or hold various investments, which may result in certain risks, the amount of which is not apparent from the financial statements.

General Economic and Market Conditions. The value of the Fund's total net assets should be expected to fluctuate. To the extent that the Fund's portfolio is concentrated in securities of a single issuer or issuers in a single sector or geographic region, the risk of any investment decision is increased. An Investment Fund's use of leverage is likely to cause the Fund's average net assets to appreciate or depreciate at a greater rate than if leverage were not used.

The Fund's portfolio can be significantly impacted by general economic and political conditions, global and domestic market and industry-specific economic conditions. Political developments, cybersecurity attacks, natural disasters, public health crises and other events outside of the Fund's control can also adversely impact the Fund and its portfolio in material respects. For example, if any of these events occurred it may have an impact on the Fund's fair value measurements, financing arrangements or its ability to achieve its investment objectives which could have a material impact.

Private Equity Investments. Private equity is a common term for investments that are typically made in private or public companies through privately negotiated transactions, and generally involve equity-related finance intended to bring about some kind of change in an operating company (e.g., providing growth capital, recapitalizing a company or financing an acquisition). Private equity funds, often organized as limited partnerships, are the most common vehicles for making private equity investments, although, following the transition period, the Fund intends to invest approximately 90% of its total assets in Direct Access Investments through or alongside Investment Funds sponsored or managed by the Core Independent Managers. The investments held by private equity funds and Direct Access Investments involve the same types of risks associated with an investment in any operating company.

However, due to the private nature of these investments, there are no readily available market quotations and the investments tend to be illiquid and highly speculative. Such investments are valued by the Fund at fair value as determined pursuant to the policies and procedures approved by the Board. The value at which the Fund's investments can be liquidated may differ from the fair value determined by the Fund. Private equity has generally been dependent on the availability of debt or equity financing to fund the acquisitions of their investments. Depending on market conditions, however, the availability of such financing may be reduced dramatically, which may limit the ability of private equity funds to obtain the required financing or may reduce their expected rate of return.

Illiquidity of Investment Fund Interests. There is no regular market for interests in Investment Funds, which typically must be sold in privately negotiated transactions. Any such sales would likely require the consent of the applicable Investment Fund and could occur at a discount to the stated NAV. If the Adviser determines to cause the Fund to sell its interests in an Investment Fund, the Fund may be unable to sell such interests quickly, if at all, and could therefore be obligated to continue to hold such interests for an extended period of time.

Fees, Expenses, and Incentive Allocations. Investment sponsors who operate Investment Funds in which the Fund invests may receive fees for their services. The fees indirectly borne by the Fund may include a portion of the Investment Funds asset-based fees, incentive allocations, carried interest or fees and operating expenses. These fees are deducted directly from the Investment Funds assets in accordance with their governing documents. Some or all of the Investment Funds in which the Fund invests charge carried interest, incentive fees or allocations based on the Investment Funds' performance. The Investment Funds in which the Fund invests generally charge a management fee of 2% annually of committed or net invested capital, and approximately 15% to 25% of net profits as a carried interest allocation.

Please refer to the Fund's prospectus and statement of additional information for a full listing of risks associated with investing in the Fund.

### 4. INVESTMENT ADVISORY AGREEMENT, TRANSACTIONS WITH RELATED PARTIES AND OTHER FEES

The Fund pays the Adviser a monthly fee of 0.075% (i.e., 0.90% on an annualized basis) of the Fund's month-end net asset value (the "Management Fee"). The Management Fee is an expense paid out of the Fund's net assets and is computed based on the value of the net assets of the Fund as of the close of business on the last business day of each month (including any assets in respect of Shares that will be repurchased as of the end of the month). The Management Fee is in addition to the asset-based fees and incentive fees paid by the Investment Funds to the Investment Managers and indirectly borne by investors in the Fund. The Fund incurred \$4,903,319 in Management Fees for the six months ended September 30, 2025, which is included in the Consolidated Statement of Operations. As of September 30, 2025, the payable due to the Adviser for Management Fees was \$2,208,308.

As outlined in the Fund's prospectus, the Adviser has an "Expense Limitation and Reimbursement Agreement" with the Fund through August 1, 2026 (the "Limitation Period") to limit the amount of "Specified Expenses" (as described herein) borne by the Fund in respect of Class A and Class I shares, for any fiscal year, to an amount not to exceed 0.55% per annum of the Fund's net assets attributed to Class A and Class I shares, respectively. "Specified Expenses" is defined to include all expenses incurred in the business of the Fund, provided that the following expenses are excluded from the definition of Specified Expenses: (i) the Management Fee and underlying Investment Fund expenses (including contribution requirements for investments, expenses and management fees); (ii) interest expense and any other expenses incurred in connection with the Fund's credit facility; (iii) expenses incurred in connection with secondary offerings and Co-Investment Opportunities and other investment-related expenses of the Fund; (iv) Distribution and Servicing Fees in respect of any Class of shares; (v) taxes; and (vi) extraordinary expenses. This agreement may be renewed by the mutual agreement of the Adviser and the Fund for successive terms. Unless renewed, this agreement will terminate automatically at the end of the Limitation Period. This agreement will also terminate automatically upon the termination of the investment advisory agreement between the Adviser and the Fund unless a new investment advisory agreement with the Adviser becomes effective upon such termination. To the extent that Specified Expenses in respect of any Class of shares for any month exceed the Expense Cap applicable to a Class of shares (the "Excess Expenses"), the Adviser will pay the Fund for expenses to eliminate such excess.

To the extent that the Adviser pays Excess Expenses in respect of a Class of shares, it is permitted to receive reimbursement for any expense amounts previously paid by the Adviser, for a period not to exceed three years from the date in which such expenses were paid by the Adviser on a monthly basis, even if such reimbursement occurs after the termination of the Limitation Period, provided that the Specified Expenses in respect of the applicable Class of shares have fallen to a level below the Expense Cap of the Class and the reimbursement amount does not raise the level of Specified Expenses in respect of a Class of shares in the month the reimbursement is being made to a level that exceeds the Expense Cap of the Class. For the six months ended September 30, 2025, the Fund did not waive or reimburse excess expenses paid by the Adviser.

The Fund has adopted a Distribution and Service Plan Agreement (the "Plan") for Class A and Class I shares pursuant to Rule 12b-1 under the 1940 Act. Pursuant to the Plan, the Fund pays a monthly fee out of the net assets of Class A shares at the annual rate of 0.60% of the aggregate net asset value of the Class A shares, determined and accrued as of the last day of each calendar month (before any repurchase of shares) (the "Distribution and Servicing Fee").

The Distribution and Servicing Fee is paid to iCapital Markets LLC, an affiliate of the Adviser, as the distributor of the shares (the "Distributor") to provide compensation for ongoing distribution-related activities or services and/or maintenance of the Fund's shareholder accounts, not otherwise required to be provided by the Adviser. Class I shares are not subject to the Distribution and Servicing Fee. During the six months ended September 30, 2025, pursuant to the Plan, Class A shares incurred \$1,114,319 in Distribution and Servicing Fees paid to the Distributor, which are included in the Consolidated Statement of Operations. As of September 30, 2025, Distribution and Servicing Fees payable to the Distributor is \$442,840.

The Fund reimburses the Adviser for certain sub-accounting and sub-transfer agency fees at 0.15% of the net assets of applicable shareholder accounts for the fees payable by the Adviser to identified service providers. During the six months ended September 30, 2025, the Fund incurred \$197,912 of sub-accounting and sub-transfer agency fees, all of which were reimbursed to the Adviser under this arrangement and recorded as transfer agent fees in the Consolidated Statement of Operations.

The Board provides supervision of the affairs of the Fund. The Trustees of the Fund who are not affiliated with the Adviser receive an annual retainer and per meeting fees for special meetings and are reimbursed for out-of-pocket expenses incurred while carrying out their duties as Board members. The Chairperson of the Board, and the Audit Committee Chair, and the Nominating and Governance Committee Chair receive additional annual retainers. The Trustees do not receive any pension or retirement benefits from the Fund. Trustee fees and expenses incurred for the six months ended September 30, 2025, are included in the Consolidated Statement of Operations.

#### **Ultimus Fund Solutions ("UFS")**

UFS provides administration, fund accounting, and transfer agent services to the Fund. Pursuant to the servicing agreement with UFS, the Fund pays UFS customary fees for providing such services to the Fund. During the six months ended September 30, 2025, certain officers of the Fund were also officers of UFS and are not paid any fees directly by the Fund for serving in such capacities. For the six months ended September 30, 2025, the Fund incurred \$298,170 of administrative service fees, \$70,940 of transfer agent fees, and \$67,854 of fund accounting fees, which are included in the Consolidated Statement of Operations. As of September 30, 2025, services fees payable to related parties payable includes a payable of \$50,219 due to Blu Giant for printing and postage expenses.

#### 5. REPURCHASES OF SHARES

The Fund may from time to time, offer to repurchase shares pursuant to written tenders by shareholders. For the six months ended September 30, 2025, the Adviser recommended and intends to continue to recommend to the Board (subject to its discretion) that the Fund offer to repurchase shares from shareholders on a quarterly basis in an amount not to exceed 5% of the Fund's net asset value. In determining whether the Fund should offer to repurchase shares from shareholders, the Board considers the recommendation of the Adviser. The Adviser expects that, generally, it will recommend to the Board that the Fund offer to repurchase shares from shareholders quarterly, with such repurchases to occur as of each March 31, June 30, September 30 and December 31. Each repurchase offer will generally commence approximately 45 days prior to the applicable repurchase date. Any repurchase of shares from a shareholder which are held for less than one year (on a first-in, first-out basis) will be subject to an "Early Repurchase Fee" equal to 2.00% of the net asset value of any such shares repurchased by the Fund. There is no minimum number of shares which must be repurchased in any repurchase offer. For the six months ended September 30, 2025, the early repurchase fees were \$3,832. This amount is netted against the Shares Repurchased in the Statement of Changes in Net Assets.

During the six months ended September 30, 2025, the Fund repurchased tendered shares as follows:

Repurchase Date	Repurchase Offer Amount	% of Shares Tendered	Number of Shares Tendered	Net Asset Value of Shares Tendered	Repurchased Value of Shares Tendered	Shares Outstanding on Repurhase Date, Before Repurchase
June 30,2025						_

### 6. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The Fund's tax year-end is September 30, 2025, as such, the information in this section is as of the Fund's tax year end.

The tax character of Fund distributions paid for the tax years ended September 30, 2025, and September 30, 2024, was as follows:

	Ta	ax Year Ended	Tax Year Ended			
	Septe	ember 30, 2025	September 30, 202			
Ordinary Income	\$	=	\$	7,782,808		
Long-Term Capital Gain		27,811,092		3,868,913		
Return of Capital		3,306,244				
	\$	31,117,336	\$	11,651,721		

As of September 30, 2025, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Undistributed	Undistributed	Post October Loss	Capital Loss	Other	Unrealized	Total
Ordinary	Long-Term	and	Carry	Book/Tax	Appreciation/	Accumulated
Income	Gains	Late Year Loss	Forwards	Differences	(Depreciation)	Earnings/(Deficits)
\$ -	\$ -	\$ (2.167.482)	\$ -	\$15.482.615	\$ 252,667,966	\$ 265.983.099

The difference between book basis and tax basis accumulated ordinary income/(loss) and other book/tax differences are primarily attributable to the unamortized portion of organizational expenses for tax purposes and adjustments for partnerships, passive foreign investment companies, and the Fund's wholly-owned subsidiary.

Late year losses incurred after December 31 within the tax year are deemed to arise on the first business day of the following tax year for tax purposes. The Fund incurred and elected to defer such late year losses of \$2,167,482.

Permanent book and tax differences, primarily attributable to the tax treatment of net operating losses resulted in reclassification for the tax year ended September 30, 2025 as follows:

	Accumulated				
Paid-in Capital	earnings(losses)				
\$ 9,692,952	\$ 9,694,126	,			

These reclassifications had no effects on net assets.

The cost of investments for federal income tax purposes is adjusted for items of taxable income allocated to the Fund from the Investment Funds. The allocated taxable income is reported to the Fund by the Investment Funds on Schedule K-1. The Fund has not yet received all such Schedule K-1s for the year ended December 31, 2024 (the underlying Investment Funds' year-end); therefore, the tax basis of investments for 2025 will not be finalized by the Fund until after the fiscal period end.

#### 7. COMMITMENTS AND CONTINGENCIES

#### **Revolving Credit Agreement**

Effective March 3, 2023, the Fund entered into a revolving credit agreement ("Credit Facility") with Royal Bank of Canada (the "Lender"). The Credit Facility, as amended on February 28, 2025, has a maximum borrowing limit of \$90 million ("Committed Loan Limit") and has a maturity date of February 27, 2026. The Fund has access to the Credit Facility for working capital to manage liquidity, including providing financing for the Fund's acquisition of Investment interests. The Credit Facility has an interest rate which is dependent upon the effective borrowing date ("Borrowing Date"); if a Loan is requested three business days prior to the Borrowing Date, the applicable interest rate is 3 Month Secured Overnight Financing Rate ("SOFR") plus 1.30% per annum, if a Loan is requested less than three days prior to the Borrowing Date, the applicable interest rate is Prime Rate plus 1.30% per annum. The Fund pays the Lender a Facility Fee of 1.05% based upon the Committed Loan Limit. For the six months ended September 30, 2025, the Fund incurred \$473,795 in commitment fees, which are included in the line of credit fees in the Consolidated Statement of Operations. The Fund did not utilize the line of credit during the six months September 30, 2025.

#### 8. SUBSEQUENT EVENTS

Subsequent to September 30, 2025 and through November 29, 2025, the date the financial statements were issued, the Adviser evaluated subsequent events and concluded that there were no events requiring accrual or disclosure.
